DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 10, 12, 14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claimed a warewash machine including the fluid heating tank of claim 8/12/13 is new matter which is not supported by the original filed specification. Nowhere in the original patent does the applicant explain and describe the newly added “warewash machine” including “the fluid heating tank”. The original patent failed to show and illustrate where and how the newly added “warewash machine including the fluid heating tank”. At best, the claimed “fluid heating tank” is for use in connection with “a commercial warewasher”. However, it is not seen how the applicant now could claim that a “warewash machine including the fluid heating tank”. Further study of the original patent could not have drawn any conclusion that the “the fluid heating tank is included in warewasher machine”.

Allowable Subject Matter

3. Claims 1-9, 11, 13 are allowed.
